The Program

The Integrated Concentration in Science Program (iCons) is a 20-credit undergraduate science program offered by the College of Natural Sciences at the University of Massachusetts, Amherst, providing integrative science education in the concentration areas of Renewable Energy and Biomedicine/Biosystems. iCons does not replace a major, it enhances a major by giving students the opportunity to work in interdisciplinary teams and apply their knowledge to existing problems of global significance. Past focal issues include the cholera epidemic in Haiti, endocrine disruptors, and developing biofuels from algae.

The iCons program is composed of three courses (one per year) and a yearlong research-based thesis project during senior year. The curriculum integrates science, technology, engineering, and mathematics (STEM) expertise across disciplines and offers students collaborative learning experiences, discovery-based projects, leadership development, and multidisciplinary analytical skills in the context of real world problems. The final iCons course satisfies UMass Amherst’s new Integrative Experience (IE) general education requirement. Students choose a theme area before registering for the second-year courses, and are expected to join a lab by the spring semester of their Junior year. Most iCons courses fulfill other program or major requirements, as indicated below (for details, see: www.cns.umass.edu/icons-program/does-icons-count-for).
The iCons Courses At-A-Glance

iCons 1: Global Challenges and Scientific Solutions (4 credits)
- Introduction to attitudes and methods of integrated science
- Teamwork on case studies drawn from current topics
- Final Project in which student teams design new case studies

iCons 2: Integrative Science Communication (4 credits)
- Theme-specific sections (Renewable Energy and Biomedicine/Biosystems)
- Students engage with issues relevant to theme through writing, speaking, debating, and reading
- Individual and team assignments

iCons 3: Team Discovery Laboratory (4 credits)
- Theme-specific labs (Renewable Energy and Biomedicine/Biosystems)
- Student-team driven experiments
- Final project presentations

iCons 4: Interdisciplinary Research Project (4 credits in Fall, 4 credits in Spring)
- Each student designs his/her own interdisciplinary research project
- Student teams meet to support and integrate individual projects
- Students produce 60-second video abstracts to communicate impact of research
- Students complete Integrative Experience (IE) reflection
- Program culminates in Senior Research Exposition
**The iCons Course Sequence At-A-Glance**

### FIRST YEAR

<table>
<thead>
<tr>
<th>Fall Semester</th>
<th>Spring Semester</th>
</tr>
</thead>
</table>
| ➢ Applications due  
➢ Students selected for next cohort  
➢ Orientation session early December | ➢ iCons 1 -- NATSCI 189 H (4 credits):  
“Global Challenges, Scientific Solutions”  
• Counts as Gen Ed Interdisciplinary  
• Carries Honors credit  
➢ Choose Theme Area:  
• Biomedicine/Biosystems (Biomed)  
• Renewable Energy (RE) |

### SECOND YEAR

<table>
<thead>
<tr>
<th>Fall Semester</th>
<th>Spring Semester</th>
</tr>
</thead>
</table>
| ➢ Community engagement activities  
➢ Begin looking for research opportunities  
➢ Take prerequisites for iCons 3 Biomed:  
• Bio 285 or BMB 275 with grade of “C” or higher  
➢ Take prerequisites for iCons 3 RE:  
• Calculus 127/128 or Calculus 131/132 with a grade of “C” or higher  
• Science lab courses or science courses with associated labs from at least two different departments with grade of “C” or higher | ➢ iCons 2 – NATSCI 289 H (4 credits):  
“Integrated Scientific Communication”  
Section 1 – Biomed theme  
Section 2 – RE theme  
• Satisfies Junior Year Writing requirement*  
• Carries Honors credit |

*For most majors

### THIRD YEAR

<table>
<thead>
<tr>
<th>Fall Semester</th>
<th>Spring Semester</th>
</tr>
</thead>
</table>
| ➢ Community engagement activities  
➢ Fulfill remaining pre-requisites for iCons 3  
➢ Find a research lab for iCons 4  
➢ Study abroad fits well here | ➢ iCons 3 Biomed – Bio 383 H (4 credits):  
“Gene and Genome Analysis”  
• Carries Honors Credit  
• Counts for Upper Level Elective*  
• Satisfies Criteria 2 & 3 of Integrative Experience  
➢ iCons 3 RE – NATSCI 389 H (4 credits):  
“Team Discovery Lab in Renewable Energy”  
• Carries Honors Credit  
• Counts for Upper Level Elective*  
• Satisfies Criteria 2 & 3 of Integrative Experience  
➢ Consider joining a lab [396(H), 1-3 credits] to begin research |

*For most majors

### FOURTH YEAR

<table>
<thead>
<tr>
<th>Fall Semester</th>
<th>Spring Semester</th>
</tr>
</thead>
</table>
| ➢ iCons 4 – NATSCI 490 FH (1 credit):  
“Integrative Team Science Seminar” along with  
Departmental 499 Y Research OR  
Senior Design Project I (3 credits):  
“iCons Advanced Study I”  
• Plan and perform research with peer support  
• Production of Student Showcase Video Abstracts | ➢ iCons 4 – NATSCI 490 SH (1 credit):  
“Integrative Science Senior Exposition Seminar” along with  
Departmental 499 T Thesis OR  
Senior Design Project II (3 credits):  
“iCons Advanced Study II”  
• 499 T Satisfies Commonwealth Honors College Thesis  
• 490 SH Satisfies Criterion 1 of Integrative Experience |
iCons Courses Fulfill Departmental Requirements As Follows (see key below):

Requirements Fulfilled by iCons Courses:

- **Y1**: Fulfills Interdisciplinary Honors Gen Ed (for all majors)
- **Y2**: Fulfills Honors Junior Year Writing
- **Y2***: Fulfills 4 Credits of Honors Lower-level Collateral Field
- **Y3**: Fulfills Upper Level Honors Technical Elective
- **Y3***: Fulfills 4 Credits of Honors Upper-level Collateral Field
- **Y4**: Fulfills either:
  - Honors Research/Thesis for Commonwealth Honors College (CHC) students
  - 6 Credits of Honors Independent Study for non-CHC students
  - Something else, TBD
- **Y4***: Fulfills 6 Credits of Honors Upper-level Collateral Field
