MEDICAL AFFAIRS INTERN

Lumanity applies incisive thinking and decisive action to cut through complex situations and deliver transformative outcomes to accelerate and optimize access to medical advances. With deep experience in medical, commercial, and regulatory affairs, Lumanity transforms data and information into real-world insights and evidence that powers successful commercialization and empowers patients, providers, payers, and regulators to take timely and decisive action.

SUMMARY

We are seeking talented, scientifically strong and entrepreneurial spirited individuals to work with our Medical Affairs team for approximately 10 weeks during the summer of 2023. As part of our team, the Medical Affairs intern will engage and interact with our clients who are Medical Affairs leaders from pharmaceutical, biotechnology, medical device, drug delivery and diagnostic industries.

Our environment provides our interns with exposure to a wide variety of medical issues faced by the life sciences industry and hands-on experience with Medical Affairs projects.

Lumanity – Medical Affairs diverse consulting assignments include therapeutic area strategy development, product opportunity assessments, development of training programs, publication and scientific communication strategy and new product launch planning. Our clients are domestic and worldwide and range in size from start-up companies to global organizations.

Interns develop their skills through formal and informal training, as well as receiving mentorship to build knowledge of the pharmaceutical industry and Medical Affairs.
